IN THE CLAIMS

Please amend the claims as follows:

1-11. (canceled)

12. (previously presented) A method of displaying status information for a machine via a web interface between said machine and a web server, said method comprising:

maintaining status data for said machine utilizing said machine;

receiving a request from a user to view a web page comprising said status information; and

causing said web page to be displayed to said user utilizing said web server in response to said receiving in order to reduce an amount of processing work required by said machine, wherein

said causing comprises

generating a new markup language file in response to a determination that said status data has been previously updated, and

transmitting said new markup language file to said user in response to said generating,

said request comprises data specifying a requested human language, and

said generating comprises generating said new markup language file in only said requested human language.

13.   (previously presented) The method of claim 12, wherein said data specifying said requested human language comprises data specifying a plurality of requested human languages, and said generating comprises generating said new markup language file in only each of said plurality of requested human languages.

14-26. (canceled)
